

Food Packaging Australia

ENVIRONMENTAL STRATEGY

Policy Number: 13.01

Authorised by: Mal Taggart

Policy Statement

Food Packaging Australia is committed to the ongoing management of our environment, by implementing systems to encourage recycling, reduce waste and look to market product which has a reduced impact on our environment.

We commit to further developing internal waste systems and review our disposal of such waste.

We commit to examine latest technology in Food Safe packaging products that will have less impact on our environment than conventional forms of packaging marketed today.

We commit to examining the viability of recycling all forms of established food packaging products in a commercially viable cost efficient manner.

We commit to achieving a better understanding of waste management and waste removal throughout the distribution path of our products.
