

Bin Liners

Degradable Bin liners

enviroCHOICE

Your choice to make a difference

Manufactured using EPI's OXO-Biodegradable additive technology, the Envirochoice bin liner provides a degradable yet strong bin liner. Envirochoice bin liners are better for our environment than conventional liners as the EPI technology allows the product to be recycled, yet degrade when exposed to heat and sunlight if not recycled.

EC-BL1010

Kitchen Tidy Bin Liner
OXO Biodegradable
18 Litres Clear

510 x 430 mm
