

Smoothwall Foil Containers

Roast, bake, seal, serve.

Smoothwall Foil Containers

A sturdy range of foil containers, constructed using a heavier gauge of aluminium. The manufacturing process allows for smoother side walls and a smooth flange for heat sealing applications.

Perfect for roasted protein products or vegetables and oven ready meals.

- High temperature tolerant.
- Heavy duty construction.
- Smooth flange for a secure lid seal.
- Ideal for M.A.P applications.
- Available in a range of stock line sizes.
- Custom sizes and shapes available subject to minimum purchase quantities.
